Unit 1 · Number

Easy

Number sets & types of number

A. Odd or even?

- 1 37 is odd
- 2 128 is even
- 3 405 is odd
- 4 66 is even
- 5 1001 is odd
- 6 3240 is even

B. Prime, composite or neither?

- 7 1: Neither
- 8 2: Prime (only factors 1 and 2)
- 9 9: Composite (factors: 1, 3, 9)
- 10 13: Prime (only factors 1 and 13)
- 11 21: Composite (factors: 1, 3, 7, 21)
- 12 29: Prime (only factors 1 and 29)
- 13 35: Composite (factors: 1, 5, 7, 35)
- 14 51: Composite (factors: 1, 3, 17, 51)
- 15 53: Prime (only factors 1 and 53)
- 16 91: Composite (factors: 1, 7, 13, 91)

C. Triangular numbers

- 17 1, 3, 6, 10, 15, 21, 28, 36
- 18 21, 36, 45, 55 are triangular (24 and 40 are not)
- 19 55

D. Problem solving

- 20 23, 29, 31, 37, 41, 43, 47
- 21 1, 2, 3, 4, 6, 9, 12, 18, 36 → composite

22 Every other even number can be divided by 2, so it has at least 3 factors (1, 2 and itself).

★ Challenge

23 31 ($3+1 = 4$ and 31 is prime)

24 $3 + 17$ and $7 + 13$

25 36 ($T_8 = 36 = 6^2$)
